8mm Glass

This 8mm glass panel is supported by a floor to ceiling chrome column. The top section of the column is telescopic, allowing it to be adjusted in height from 2027mm to 2700mm. You simply slide out the top section until it reaches the ceiling and a half twist secures it to the required height. The column can be screw fixed to the ceiling and the base is secured to the shower tray with an innovative new fitting that requires no screws and can be easily removed.
